Bird feeder - large, type PK2

Price	**35,00 Euro**
Availability	**Available**
Manufacturer	**Cultural Farm BioDar**

Product description

A large bird feeder, aesthetically made, perfect for installation at kindergartens, parks, and walking routes.
The feeder should be mounted on a stake or placed on a flat surface.
The large size will allow access to food for many birds at once.

Material:
For the construction of the feeder, wood dried to the "air-dry" state was used, thanks to which it will not swell, will not form gaps and cracks. 2 cm thick boards and screw assembly ensure high durability.

Dimensions:

- height 33 cm,
- width 36 cm,
- length 60 cm.

Weight:
8 kg

Finish:
bird feeder is painted with a wood impregnate that is harmless to birds.

Colors:
pine (clear varnish) or brown
The colors in the picture may differ from the actual colors of the product.

This product has additional options:

Color: Brown , Clear

Producer

Cultural Farm BioDar implements its mission using the rich scientific achievements of the Institute of the Heritage of Villages and Regions and extensive cooperation with non-governmental organizations.
The protection of natural and cultural heritage is an important sphere of the Farm's activities, and one of the basic goals is to preserve biodiversity and breeding useful organisms that can be used in agriculture and horticulture.

Since 1989, we have been implementing a program for implementing of bumblebees and solitary bees for horticulate practice and since 2012 the company has been running its own breeding of solitary bees on a commercial scale. By participating in the creation of biological progress, we respond to the high demands placed on by food consumers and our customers in the field of high quality of offered products and the safety of their use.

The farm is part of the regional biodiversity conservation center. In this area of engagement, it runs conservation collections of crops with high biological value (historical varieties of agricultural, vegetable and fruit plants). In cooperating organic farms, it also oversees collections of medicinal, herbal and melliferous plants. Similar works are carried out for the protection of rare and endangered plants.
